About doxo

Each year U.S. households spend over \$4.6 trillion on recurring bill payments. While staying on top of these bills is the single largest determinant for consumer financial health, organizing and paying them can be a time-consuming and frustrating chore. Since its inception, doxo has been on a mission to simplify and reduce the anxiety of staying on top of bills, empowering consumers to improve their financial health.

Our company was founded on the simple idea that there should be an easy and more secure way for consumers to pay all of their bills through a single account, with any payment method, on any device. As consumers shift more bill payments online and to mobile, doxo continues to experience rapid growth. To date, over seven million doxo users across 97% of U.S. zip codes have paid bills through the payment network, across more than 45 different service categories. With more than 120,000 payable billers, doxo's proprietary, crowd sourced provider directory is the largest in the nation.
